i2 Analyst's Notebook - Importing
9T231G

Delivery Type: Classroom
Duration: 1 day

Overview

Gain a deeper understanding of the potential when using the import function in Analyst's Notebook. Ensure that charts are produced in an effective and efficient manner with the least amount of time spent "cleansing and formatting" and, when that is required, undertake it without affecting the original source documentation.

An interactive course using a combination of lecture, hands-on work and exercises.

Pre-Requisites

You must be familiar with:
- ✓ using Microsoft Windows
- ✓ You should have:
- ✓ A good working knowledge of the basic features of i2 Analyst's Notebook (such as gained by attendance of the i2 Analyst's Notebook Essentials course)
- ✓ An understanding of the concepts and use of visual investigative techniques and how they will help you in your current job are advantageous
- ✓ All our courses are conducted in English. It is

therefore essential that you have a good understanding of both spoken and written English.
