

BRMS for IBM i

AS28G

Delivery Type: Classroom

Duration: 5 days

Overview

Backup and recovery – knowing how to do it is not optional! Learn once and never forget how to use BRMS to do regular and ad-hoc backups, recovery, and offsite tape backups.

Pre-Requisites

Students must be familiar with standard OS/400 Save/Restore facilities and have attended the courses AS24 and OL51 or have equivalent education and experience.

Objectives

On completion, you will be able to :

- ✓ Setup BRMS to do both regular and ad-hoc backups.
- ✓ Recover the entire system (or parts thereof).
- ✓ Use BRMS Media Management to move tape volumes to offsite locations.
- ✓ Run Daily Maintenance routines and to manage an IBM Automated Tape Library.
- ✓ Target Audience

iSeries Operations staff who are responsible for the configuration and management of iSeries Backup and Recovery, especially those implementing BRMS/400.
