Avaya Modular Messaging Implementation for MSS
ATI01139I

Duration: 3 days

Overview

This three-day course provides hands-on training in basic installation and configuration tasks for Avaya Modular Messaging. In addition, this course provides opportunities to troubleshoot issues that may arise during the installation process.

Objectives

Upon completion of this course, you should be able to:
- ✓ Recall Avaya Modular Messaging 5.2 pre-installation tasks.
- ✓ Install Avaya Modular Messaging 5.2 system hardware.
- ✓ Install Avaya Modular Messaging 5.2 software.

- ✓ Troubleshoot common installation issues.
- ✓ Recall the high-level process to upgrade or migrate to Avaya Modular Messaging 5.2.
- ✓ Identify the pre-requisites and requirements for installing an Avaya Modular Messaging system that uses Avaya S8800-family message servers.
- ✓ Identify the Avaya S8800 server components.
- ✓ Install the Avaya S8800 server.
- ✓ Configure Avaya and customer-provided MAS in the Modular Messaging system.
- ✓ Perform acceptance tests for a new installation.
- ✓ Set up logins, remote access, and alarming on the MSS.
- ✓ Upgrade Modular Messaging software to release 5.2.
