

Avaya Modular Messaging Single Server Implementation

ATI01140I

Duration: 1 day

Overview

This one-day course provides hands-on training in basic installation and configuration tasks for the single server configuration of Avaya Modular Messaging. In addition, this course provides opportunities to troubleshoot issues that may arise during the installation process.

Objectives

- ✓ Describe the architecture of the single server solution for Avaya Modular Messaging 5.2;
- ✓ Identify the pre-requisites and requirements for installing an Avaya Modular Messaging system that uses the single server configuration;
- ✓ Recall Avaya Modular Messaging 5.2 pre-installation tasks;
- ✓ Install Avaya Modular Messaging 5.2 hardware for the single server configuration;
- ✓ Install Avaya Modular Messaging 5.2 software for the single server solution;
- ✓ Configure the MAS and MSS in the single server solution;
- ✓ Perform acceptance tests for a new installation
- ✓ Troubleshoot common installation issues.
