Avaya Aura Communication Manager Messaging: Implementation
ATI01731V

Duration: 5 days

Overview

This course focuses on the tasks required for initial implementation of Avaya Aura™ Communication Manager Messaging (CMM) 6.0 on an installed Communication Manager 6.0 system, with either H.323/QSIG or SIP integration. Up-to-date information on product features and hands-on virtual lab experience provide you with the tools and understanding to set up the messaging environment.

Pre-Requisites

Participants will be expected to have a basic understanding of Communication Manager and Session Manager.

Objectives

✓ Perform the pre-installation tasks required to implement Avaya Aura CMM;
✓ Enable the Avaya Aura CM Messaging application;
✓ Configure the Avaya Aura CM Messaging application;
✓ Test and validate the implementation of Avaya Aura CM Messaging;
✓ Perform migrations for Avaya Aura CMM;
✓ Diagnose and resolve installation problems for Avaya Aura CMM.
