IBM Cognos Report Studio: Author Active Reports (V10.1)
B5198G

Delivery Type: Instructor-led Online
Duration: 1 day

Overview

IBM Cognos Education is now pleased to offer you our courses in an exciting new learning format, Instructor-led Online (ILO). Students are offered a similar experience to live classroom training, with the convenience of having it delivered directly to their desktop.

IBM Cognos Report Studio: Author Active Reports (V10.1) is an advanced one-day, instructor-led online course in which students build on their Report Studio experience by using active report controls to build highly interactive reports that can be consumed by users. Participants will apply their knowledge through demos and workshops to author active reports containing pre-packaged data which can be distributed and viewed by users when a data source is not available. This course builds on advanced report authoring skills and contains many independent workshop exercises. In addition, this course contains a new module that demonstrates features added to IBM Cognos Active Reports V10.1.1. Participants will learn how they can use these features to optimize active reports that are

consumed on mobile devices, such as an iPad tablet.
