

Avaya Aura® Communication Manager Messaging: Implementation (ATI01731VEN)

GK0925

Duration: 2 days

Overview

This course focuses on the tasks required for initial implementation of Avaya Aura® Communication Manager Messaging (CMM) 6.0 on an installed Communication Manager 6.0 system with either H.323/QSIG or SIP integration.

Up-to-date information on product features and hands-on virtual lab experience provide you with the tools and understanding to set up the messaging environment.

Pre-Requisites

Attendees should have a basic understanding of Communication Manager and Session Manager.

Objectives

- ✓ After you complete this course you will be able to:
- ✓ Perform the pre-installation tasks required to implement Avaya Aura CMM
- ✓ Enable the Avaya Aura CM Messaging application
- ✓ Configure the Avaya Aura CM Messaging application
- ✓ Test and validate the implementation of Avaya Aura CM Messaging

- ✓ Perform migrations for Avaya Aura CMM
- ✓ Diagnose and resolve installation problems for Avaya Aura CMM

Target Audience

- ✓ Technical personnel responsible for implementing Avaya Aura Communication Manager.

Certification

This course is recommended preparation for the following exam(s):

- ✓ Avaya Certified Implementation Specialist (ACIS)- Avaya Aura® Communication Manager and CM Messaging - Embedded (R6.x)
- ✓ Avaya Certified Support Specialist (ACSS) - Avaya Aura® Communication Manager and CM Messaging – Embedded.
