Cisco ASA 5500-X Bootcamp

GKASA5500X

Delivery Type: Classroom
Duration: 2 days

Overview

A key component of the Cisco Secure Borderless Network, the Cisco ASA 5500-X Series Adaptive Security Appliance delivers superior scalability, a broad span of technology and solutions, and effective, always-on security designed to meet the needs of an array of deployments. By integrating the world's most proven firewall; a comprehensive, highly effective intrusion prevention system (IPS); and a high-performance VPN, the Cisco ASA 5500-X Series helps organizations provide secure, high performance connectivity and protects critical assets for maximum productivity. This course will cover the configuration fundamentals of the Cisco ASA 5500-X series and the changes since version 9.1.x software release, ASDM 7.x and the new CX feature managed through PRSM.
