HP BladeSystem Administration: C-class
HE646S

Delivery Type: Classroom
Duration: 3 days

Overview :
This 3-day course provides instruction on HP BladeSystem administration and management. Discussion of the portfolio overview ensures an understanding of components, configurations, and solutions.

Objectives
- ✓ Review the HP c-Class BladeSystem Portfolio and equipment capabilities.
- ✓ Introduce Virtual Connect (basic concepts).
- ✓ Gain the ability to perform successful site planning and infrastructure design needed to deploy an HP c-Class BladeSystem solution.
- ✓ Be able to perform effective local and remote administration using HP Onboard Administrator.
- ✓ Discuss the functional architecture of the ProLiant BL c-Class environment, including the servers, management infrastructure (Insight Display, Onboard Administrator and iLO), and power.
- ✓ Understand the various servers and management tools which will be required in the solution.

- ✓ Understand the support processes for the HP BladeSystem components, enclosures and software.

Target Audience
This course is suitable for administrators, engineers and consultants who will plan and manage the deployment of HP ProLiant BladeSystem c-Class blade servers.
