

HP Node and Virtual Partitions

HG770S

Delivery Type: Classroom

Duration: 2 days

Overview

This course covers hard partitioning (nPars) and virtual partitioning (vPars) management on cell-based HP 9000 and Integrity servers. The two-day course is 50 percent lecture and 50 percent hands-on labs using HP servers. Please note: This course is a subset of the content of the course HP Partition Management (U5075S).

Objectives

- ✓ Identify the hardware and software components of HP's Virtual Server Environment (VSE).
- ✓ Configure and manage virtual partitions (vPars).
- ✓ Configure and manage node partitions (nPars).
- ✓ Use Ignite-UX to install HP-UX in a partition.

Follow on Courses

- ✓ HP-UX Virtualization Tools Boot Camp (HF869S)
- ✓ **Or** consider attending the other courses in the HP Virtual Server Environment (VSE) curriculum to learn more about HP-UX virtualisation.

Pre-Requisites

- ✓ HP-UX System and Network Administration I (H3064S)
- ✓ HP-UX System and Network Administration II (H3065S)
- OR**
- ✓ HP-UX System and Network Administration for Experienced UNIX System Administrators (H5875S)
- OR**
- ✓ Equivalent experience.

Target Audience

This course is suitable for experienced HP-UX system administrators.
