HP B Series Fabric Professional (BCFP)
HK911S

Delivery Type: Classroom
Duration: 3 days

Overview :

This three-day course provides a comprehensive understanding of complex configurations within a HP B series San solution covering technologies and concepts. Students will gain the experience needed to tackle the challenges of working in enterprise class SAN environments.

This practical course provides exposure to HP B series complex SAN solutions and supporting technologies, such as Fibre Channel over IP and Virtual Fabrics. Participants learn about protocols, standards, management practices and tools, . Each lab provides experience with component configuration, SAN management, and other SAN related activities in a B series environment.

This course provides a comprehensive understanding of the day to day tasks of managing a complex HP B series SAN environment, technologies and the experience needed to tackle the challenges of working with SAN solutions.

Please note: Additional study might be required for BCFP certification, please read Brocade Study Guide for Exam.

Pre-Requisites

- ✓ Participants will be expected to have the following experience:-
- ✓ Basic technical understanding of networking and storage, concepts and terminology.
- ✓ Experience managing Windows or UNIX systems.
- ✓ Accelerated SAN Essentials. UC434S
- ✓ HP B Series Administration.

Objectives

- ✓ Brocade NPIV and Access Gateway.
- ✓ FCIP Theory Administration.
- ✓ Adaptive Networking Fabric Profiling.
- ✓ FCoE
- ✓ Brocade Virtual Fabrics.
- ✓ Brocade FC routing theory and administration.
- ✓ Adaptive Networking Traffic Management.
- ✓ Brocade Security.

Target Audience
This course is designed for technical professionals seeling a learning path that includes both conceptual knowledge of Fibre Channel SaN technologies and experience in HP B series SAN environments.
