

Linux Professional Institute Level 1

LPI1

Delivery Type: Classroom

Duration: 5 days

Overview

This training is designed to prepare the participants for LPI Certification Level 1. LPIC-1 is a junior level certification for Linux administrators.

At the end of the course, participants should be able to work at the Linux command line; perform easy maintenance tasks: help users, add users to a larger system, backup and restore, shutdown and reboot; install and configure a workstation (including X) and connect it to a LAN, or a standalone PC to the Internet.

Certification

- 101 exam of the LPI level 1 certification
- 201 exam of the LPIC-2 certification

This course prepares students to take the 101 exam of the LPI level 1 certification. The Linux Professional Institute (LPI) is the go to certification body for vendor independent Linux certifications. This course covers fundamental Linux skills such as file management and manipulation, text processing, command line use, package management, file systems, hardware, and many more. Students will feel confident taking the LPI LPIC-1 101 exam with in classroom assessments and practice exams. Current Version: E02

Prerequisites:

General computing knowledge and experience. No prior knowledge with Linux is required.

This course prepares students to take the LPI 201 exam of the LPIC-2 certification. The Linux Professional Institute (LPI) is the go-to certification body for vendor independent Linux certifications. This course covers more advanced Linux skills such as system management and networking. Students will feel confident taking the LPI LPIC-2 201 exam with in classroom assessments and practice exams.

Current Version: D01

Prerequisites:

LPIC-1 certification or LPI101 "LPIC-1 Exam Prep (Course 1)" and LPI102 "LPIC-1 Exam Prep (Course 2)".
