

IBM Cognos TM1: What's New (V10.1)

P8158G

Delivery Type: Instructor-led

Duration: 2 days

Overview

IBM Cognos Education is now pleased to offer you our courses in an exciting new learning format, Instructor-led Online (ILO). Students are offered a similar experience to live classroom training, with the convenience of having it delivered directly to their desktop.

IBM Cognos TM1: What's New (V10.1) is a two-day, instructor-led online course that combines lecture material and hands-on practice in using new features in TM1 version 10.1. The course outlines basic usage of the new features for analysis, modeling, and administration. Students will learn how to create an analysis using Cognos Insight. They will also use Performance Modeler to create model objects and deploy applications. In addition, they will learn how to use the new Operations Console to monitor the TM1 environment.

Pre-Requisites

Students should have:

- ✓ Basic knowledge of OLAP
- ✓ Basic knowledge of previous editions of TM1
