

HP NonStop SQL/MP essentials

U4181S

Delivery Type: Classroom

Duration: 4 days

Overview :

This 4-day course is an introduction to the HP NonStop™ SQL/MP database product and serves as a prerequisite to more advanced courses. Hands-on lab sessions provide practical experience with creating databases and generating queries to access the data. Upon completion of this course, you will understand relational database concepts and terminology.

Pre-Requisites

Concepts and Facilities course

Objectives

- ✓ Relational database concepts and terminology
- ✓ NonStop SQL/MP components
- ✓ SQL/MP database structures
