

Delivery Type: Classroom

Duration: 5 days

Overview:

This five-day course provides a comprehensive and accelerated understanding of SAN technologies and concepts. Students will gain the experience needed to tackle the challenges of working in enterprise class SAN environments.

Pre-Requisites

- ✓ Basic technical understanding of networking and storage, concepts and terminology.
- Experience managing Windows or UNIX systems.

Objectives

- √ What is a SAN and the definition
- √ Fibre Channel Switches
- ✓ Disk targets
- ✓ SAN design
- ✓ SAN extension
- ✓ SAN security
- ✓ SAN performance
- √ Fibre Channel Basics
- ✓ SAN hosts
- √ Fibre Channel advanced
- ✓ Iscsi

- SAN Management
- Data protection
- SAN troubleshooting

Target Audience

This course is designed for technical professionals seeking an accelerated learning path that includes both conceptual knowledge of Fibre Channel SAN technologies and experience in heterogeneous SAN environments.
