

Deploying Cisco Unified Contact Center Express v5.0

UCCX

Delivery Type: Classroom

Duration: 5 days

Overview

This course provides students with hands-on experience and knowledge of tasks typically performed during contact center deployment. This includes the deployment of Cisco Unified Contact Center Express (CCX) and Cisco Unified IP Interactive Voice Response (IVR) as contact center solutions. Tasks include planning, installation and configuration, scripting, and troubleshooting.

This course is based on UCCX release 9.0

Target Audience

The primary audience for this course will be CiscoChannel Partners and Resellers, System Engineers and Customers deploying and maintaining Unified Contact Center Express products. This course is also very popular for people looking to prepare for the CCIE Voice exam as it covers the use of the CRS server for IP IVR and Call Centre type ACD applications.

Pre-Requisites

Attendees should meet the following prerequisites:

- ✓ Internetworking Fundamentals (ICND1 and ICND2 Or CCNABC) recommended.
- ✓ Basic IP telephony concepts (ICOMM) recommended.
- ✓ Cisco Unified Communication Manager deployments (CIPT1V8) recommended.
- ✓ Cisco IP Phones, Cisco IP Communicator
- ✓ Contact Center Operations
- ✓ Microsoft Windows 2000, 2003, XP
- ✓ MS SQL 2000, MSDE Databases

Objectives

After completing this program, you will be able to:

- ✓ Provide a comprehensive overview of the Cisco Unified Contact Center Express product suite. This overview will cover descriptions of the product, compatibility, and hardware and software options, architecture, and sizing and ordering tools.

- ✓ Provide a complete description of the Cisco Unified CCX installation process, the configuration required with an overview of most common configuration web pages, and describe the call flow processes needed to establish a call on Cisco Unified CCX.
- ✓ Describe the Cisco Unified CCX script editor, how it is installed and how to implement common IVR scripting techniques.
- ✓ Provide a comprehensive view of Cisco Unified CCX ACD operations to include basic contact center build-up, scripting, agent and supervisor desktop configurations, advanced scripting topics, and reporting.
- ✓ Describe how to install, configure and use features found in Cisco Unified CCX Premium such as, Remote Monitoring, Outbound Dialer, Agent Email, Agent Web Chat, and Automatic Speech Recognition (ASR) and Text-to-Speech (TTS).
- ✓ Understand how to maintain and monitor a Cisco Unified CCX system.

Certification

Recommended preparation for exam(s):

500-051 - UCCX - Unified Communications Contact Center Express Implementation

This exam is required for the Cisco IP Contact Center Express Specialist Certification
